Waste

Sustainable schools keep looking for ways to reduce or avoid waste. What would it be like to have no waste? What would you need to achieve this? Recycling materials can be part of the answer.

Survey the waste at your school.

Location	Issue	Action	Responsibility	Priority

Set your school some **goals**.

Your goal might be to: Refuse, reduce, reuse and recycle.

Think about how this could be achieved?

You might consider:

- A recycling area
- A compost program linked with a food garden
- Waste bins around the school for recycling.
